

DESIGO™ INSIGHT OPEN
OPC platform

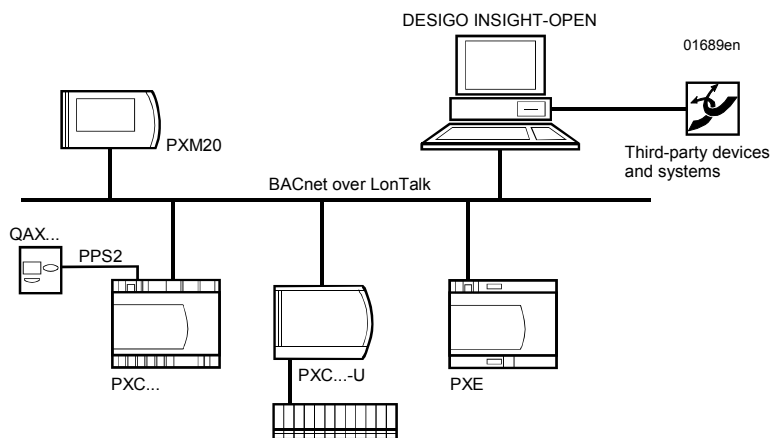

The **INSIGHT OPEN OPC platform** provides a standard platform for many third party servers allowing the exchange of information between the **DESIGO management level** and other third party systems and devices.

Function

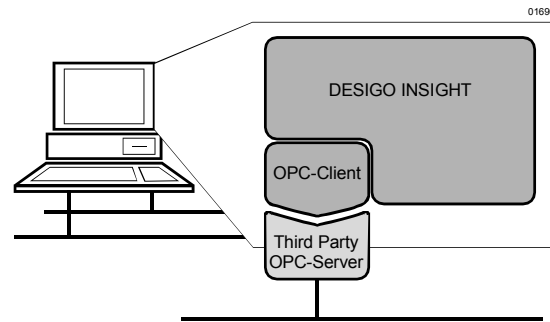

The **INSIGHT OPEN OPC platform** supports the following OPC services:

- Data Access Custom Interface V1.0a
- Data Access Custom Interface V2.03

Topology

Internal Topology

Type summary

Type	Description
INSIGHT OPEN OPC	Software platform
EIB Solution Pack	Software application for EIB
LONWORKS Solution Pack	Software application for LONWORKS
BACnet Solution Pack	Software application for BACnet

Engineering

Engineering is carried out with DESIGO:

- OPC database import with the INSIGHT OPEN Import Tool (DI-OIT)
- Engineering of INSIGHT as standard

Third-party commissioning

The commissioning procedures are described in the relevant data sheets which form part of the Application Guides for the respective Solution Packs.
