Multi-port adapters are plugged into the SICLIMAT X-OS to provide additional serial ports. The multi-port adapters are available with 4 or 8 serial ports. There are versions for PCI slots and for ISA (AT) slots.

Use

The multi-port adapters increase the number of serial ports available with the SICLIMAT X-OS, e.g. for the connection of a printer or a serial radio-controlled clock. The multi-port adapters can be connected to single and multi-user systems (subject to the number of available slots).

Function

- Increases the number of serial ports normally available with the SICLIMAT X-OS
- Provides 4 or 8 additional serial ports per slot
- Adapts the PCI bus or ISA bus
- Adapts the 4 RJ45 connectors on the front panel of the multi-port adapter with 4 serial ports to give 4 x DB25 male connectors (4 cables)
- Adapts the connector on the front panel of the multi-port adapter with 8 serial ports to give 8 x DB25 female connectors (box).
Prerequisites

- Free PCI or ISA slot in the X-OS
- SICLIMAT X Version V3.1

Ordering

When ordering, please specify the quantity, product name and type code.

**Data**

- Card dimensions
  - Multi-port adapters with 4 serial ports: ½ length
  - Multi-port adapters with 8 serial ports: ¾ length

- Driver support: SCO
- Transmission speed: Up to 460.8 kbit/s asynchronous

**Connections/interfaces**

- IOPRO8P, IOPRO8I: Multi-port adapters with 8 serial ports: board connector, 8-port Dbox, DB25, female

- Internal PC bus: IOPRO4P, IOPRO8P: PCI
  - IOPRO4I, IOPRO8I: ISA (AT)

- Signal cables: FG, SG, TXD, RXD, RTS, CTS
- Cables:
  - RJ45 – DB25 converter: 4 x 1.5m
  - 8-port Dbox DB25: 1m

**Product safety**

- Conformity: Meets the requirements for CE marking
