

Declaration of conformity

Company

Siemens Building Technologies AG
HVAC Products
Laubisrütistrasse 50
CH-8712 Stäfa

hereby declares that all valves and actuators supplied by HVAC Products and carrying the legal brand name **SIEMENS** comply with all legal, normative and functional requirements.

All control valves manufactured by Siemens Building Technologies comply to Pressure Equipment Directive 97/23/EEC.

Control valves classified as pressure bearing housings per article 1 paragraph 2.1.4. clause 3, paragraph 3, must not be CE marked and no declaration of conformity must be made available.

In order to meet the requirements as defined for clause 3, paragraph 3, we are committed to follow good engineering practice.

Magnetic valves and Refrigeration valves are shipped as units, consisting of each a magnetic actuator and a control valve. The magnetic actuator must in any case carry the CE mark due to the electrical requirements, also then when the valve corresponds to PED clause 3, paragraph 3.
