

DESIGO RX

Energy saving at high comfort –
design room unit QAX84.1

Answers for infrastructure.

SIEMENS

■ DESIGO building automation and control system

Enhanced comfort and minimum energy consumption – made possible by intelligent building technology with DESIGO™. The DESIGO RX room automation system is designed for basic HVAC control and integrated room solutions including lighting and blind control.

■ DESIGO room operation

The QAX84.1 room unit is for use in connection with standard switches and for in-wall mounting. It ensures comfort control in individual rooms and provides the following functions:

- Capture of room temperature
- Adjustment of room temperature setpoint via operating buttons
- Selection of operating mode (off / automatic / manual control) via operating buttons

- Multi-level fan control in manual mode
- LCD for room temperature and operating mode

■ Designed to fit – the new room unit QAX84.1

In addition to numerous functions, the new room unit excels in elegant design. High-quality materials, clear lines and a unique appearance are its characteristic features.

The front cover with its glass effect and the neutral white and silver fits perfectly with a wide choice of frame colors and frame designs of the most diverse makes. This meets even the highest demands for stylish room design.

Highlights

- Highest comfort level and minimum energy consumption
- Extremely versatile through combination with standard switches and sockets
- For use with the DESIGO RX room automation range and the DESIGO PX automation stations
