

# Modernization: From CZ12, CS4 and CS440 to the Future Sustainable Solution

**Step 1**  
Exchanging the central unit and addressing components.

**Step 2**  
System expansion as per requirements. Optional integration of LSN addressing components and LSN detectors.

**Step 3**  
Exchanging the glass, room and seismic detectors as well as magnetic contacts and alarm buttons.

Quality and reliability are the preferences of our world today – both are synonymous with Siemens. Advantage™ Services provides a comprehensive service portfolio for your building's infrastructure covering building automation, fire and security. These services are designed to enhance performance, deliver protection and create real value over the entire life cycle of your facility, thereby allowing you to concentrate
