

Voice evacuation system – E100

Clear message, calm reaction

Evacuating a building calls for meticulous planning – and coherent communication. The E100 voice evacuation system clearly explains the immediate situation and provides instruction. The result is a calm and orderly evacuation. The E100 emphasizes maximum safety. The network capabilities with enhanced redundancy make it a crucial part of a comprehensive fire protection solution. And our service capabilities assure long-term reliability. In other words, you can count on tested safety with the E100.
