

SiPass®
integrated

ASE5300-VA

DVR application programming interface (API) license

Adding additional DVR support to SiPass integrated

- **Allows almost any generic DVR unit to become a part of SiPass integrated**
- **Makes SiPass integrated even more flexible to adapt to your security needs**

Using the DVR API, almost any generic DVR unit can become part of a SiPass integrated system. Many DVR management features are available, such as live image viewing, event-activated recording, image verification, and full PTZ (pan-tilt-zoom) camera movement.

Features

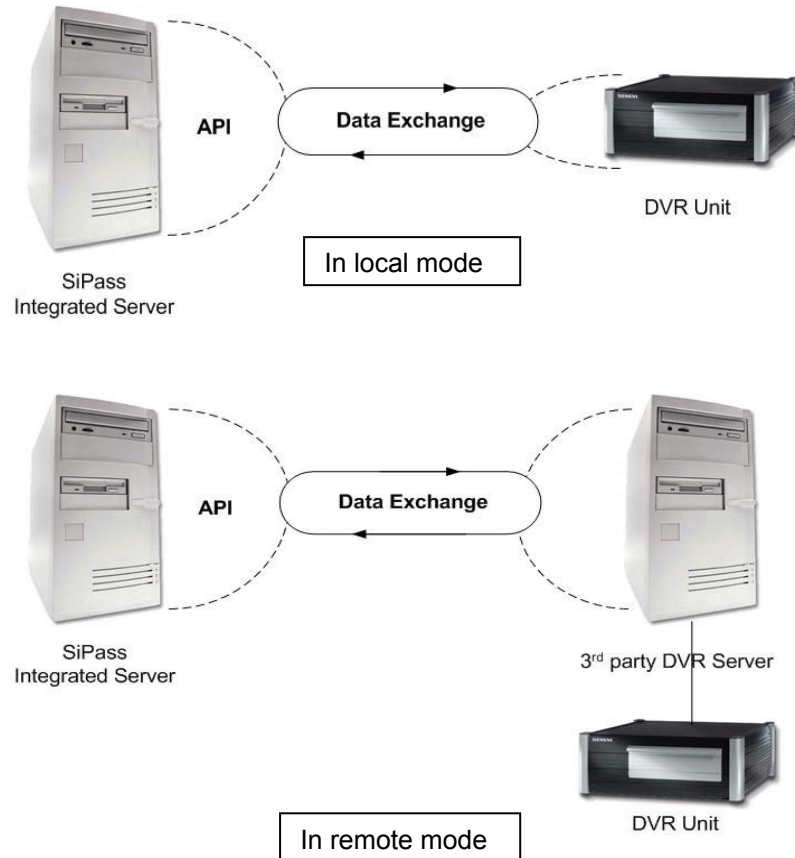

- Seamless integration with third-party DVR devices in SiPass integrated
- Live image viewing
- Image verification
- Recording via event tasks and action shortcuts
- Full PTZ functionality with compatible cameras
- Supports configurable alarms
- Full compatibility with event tasks
- Audit trail playback of recorded images
- Auto upload configuration from DVR

Benefits

Using your current DVR system with SiPass integrated could not be easier. SiPass integrated now lets you interface most popular DVR units via an advanced API specifically designed for the complete management of DVR units integrated with an access control system.

Each DVR unit connected to SiPass integrated via the API can be managed through the SiPass integrated GUI, allowing you to create event-based tasks to activate recording sequences, view live camera feeds, or simply begin recording through a single click from a graphical map, to name a few of the advanced features available.

Generic DVR Units connected to SiPass via the API

Important

Note: To facilitate seamless communication between the DVR API and SiPass integrated, a small amount of software development is required for the third-party application. With the aid of the SiPass integrated DVR API Development Guide, this task is relatively simple for a software engineer.

System requirements

One of the following software core packages is required:

Type	Part no	Designation
ASL5000-SE	6FL7820-8AA10	SiPass integrated Standard
ASL5000-OA	6FL7820-8AA20	SiPass integrated Optima

Details for ordering

To order the SiPass integrated software extensions, you must first complete a software license order form. Please contact your SiPass integrated supplier for further information.

Type	Part no	Designation	Weight
ASE5300-VA	P24246-P2804-A1	SiPass DVR integrated Application Programming Interface (API)	N/A
