Does anyone know a clever fire safety system starting with a “C”?

Cerberus PRO – enjoy protecting!
The new generation of a clever fire safety system.

www.siemens.com/cerberus

Protecting people and assets. Securing business processes and continuity. This is what fire protection is all about. Cerberus™ PRO from Siemens is a smart fire safety system for fast, proven fire detection, alarm signaling and control. Its broad portfolio comprises powerful control panels from stand-alone to networkable units, reliable detectors with patented technology and a comprehensive range of loop-powered peripheral devices. All system components have special safety features installed that increase safety even further – such as degrade mode in control panels or built-in isolators in each detector and peripheral device. Thanks to its straightforward system design, Cerberus PRO can be installed easily and quickly.
