

**SIEMENS**

# Is this hotel as green as it looks?

Tailored energy efficiency solutions from Siemens help hotels on the right way to sustainability.

Solutions for Hospitality

From energy efficient HVAC and lighting, to centralized and demand-controlled room and building automation, our solutions are at work in thousands of hotels worldwide. We combine our expertise with innovative technologies and services to deliver customized energy

efficiency solutions with measurable return on investment – every time reducing energy usage and operational costs by up to 30% without compromising guest comfort. So from boutique hotels to global chains, this is good news for their bottom line and image.
