Higher flexibility of control with the EnOcean wall-mounted transmitter

EnOcean wall-mounted transmitter – flexible, without battery and maintenance-free

Completely flexible

EnOcean wall-mounted transmitters can be mounted on any surface without cables. Simply screw or stick – done. The EnOcean wall-mounted transmitters can be combined with all DELTA miro and DELTA line frames.

Entirely maintenance-free

The EnOcean wall-mounted transmitter has no battery: It is not necessary to change batteries. The wall-mounted transmitters are therefore maintenance-free and environmentally friendly.

Highlights

- Can be used without flush-mounted socket, installed or bonded directly onto walls or any surface
- Maintenance-free pushbuttons, which generate the energy they need when the rocker is pressed
- Frames available in a choice of colors and designs
- No battery, hence environmentally friendly
