

Desigo CC Ecosystem

Desigo CC – the open building management platform, designed to meet your needs today and in the future

SIEMENS
Ingenuity for life

The open building management platform has been designed to create comfortable, safe, secure and efficient facilities for today and the future

Visualize and manage all rooms from one location and control **all disciplines**

Check building performance, increase **transparency** and make system changes **easily** – even at field level

Desigo CC – the leading building management platform: open, modular and flexible, efficient and user-friendly

Desigo CC

Open platform

- **Open** standards (BACnet, OPC, ModBus, etc.)
- **Web services** (northbound)
- **Drivers** (southbound)
- **Ecosystem**

Modular and flexible

- **Single** or **multi-discipline**
- **Scalable** in size
- **Modular and extendable** in applications and features

Efficient

- **Strong workflow concept**
- **Assisted event treatment**
- **Easy engineering**
- **Remote access**

User-friendly and easy

- **Unique state-of-the-art** UI design
- **One platform** to learn and operate
- **Multiple screen** approach
- Advanced **vector graphics**

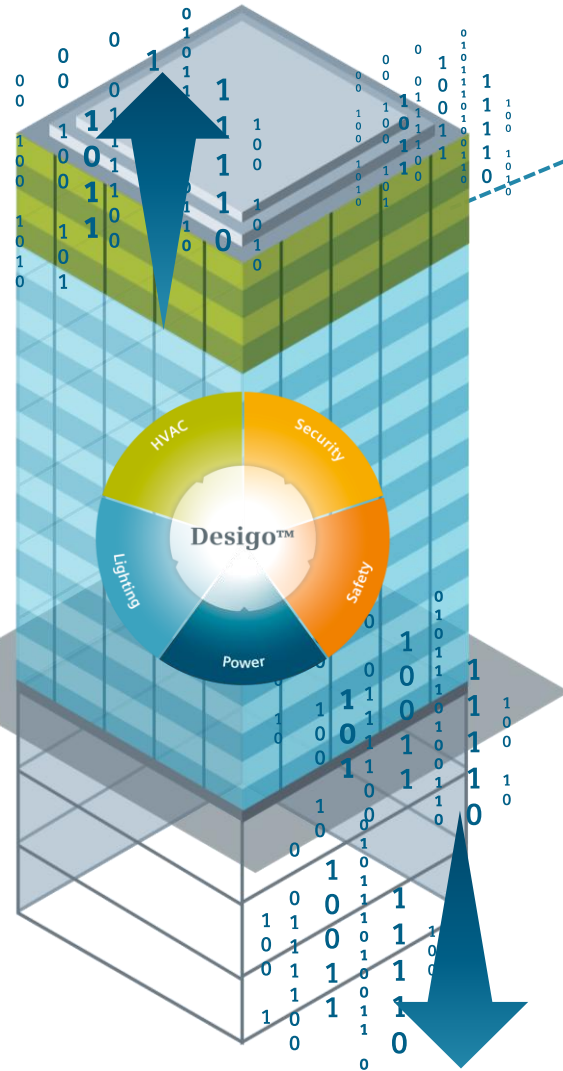

Desigo CC openess

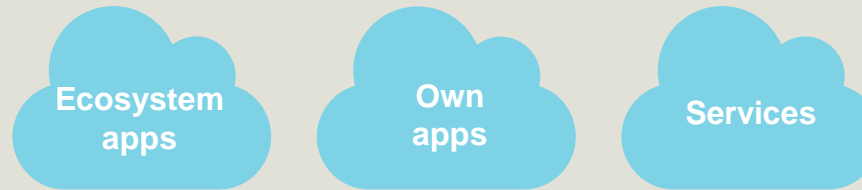

Create own apps, develop integrations into different systems

SIEMENS

Ingenuity for life

Northbound | apps and service layer

Enrich with apps & services

- Powerful open APIs
- Create own apps or leverage the Ecosystem
- Platform to provide services

Desigo CC is a building management platform that provides both state-of-the-art operation and monitoring and serves as an open integration platform

Adapt and tailor

- Flexible and modular system
- Unique user interface
- Powerful building management functionality

Southbound | physical network layer

Integrate all

- Integrate subsystems from multiple disciplines via global standards such as BACnet, Modbus, OPC, etc.

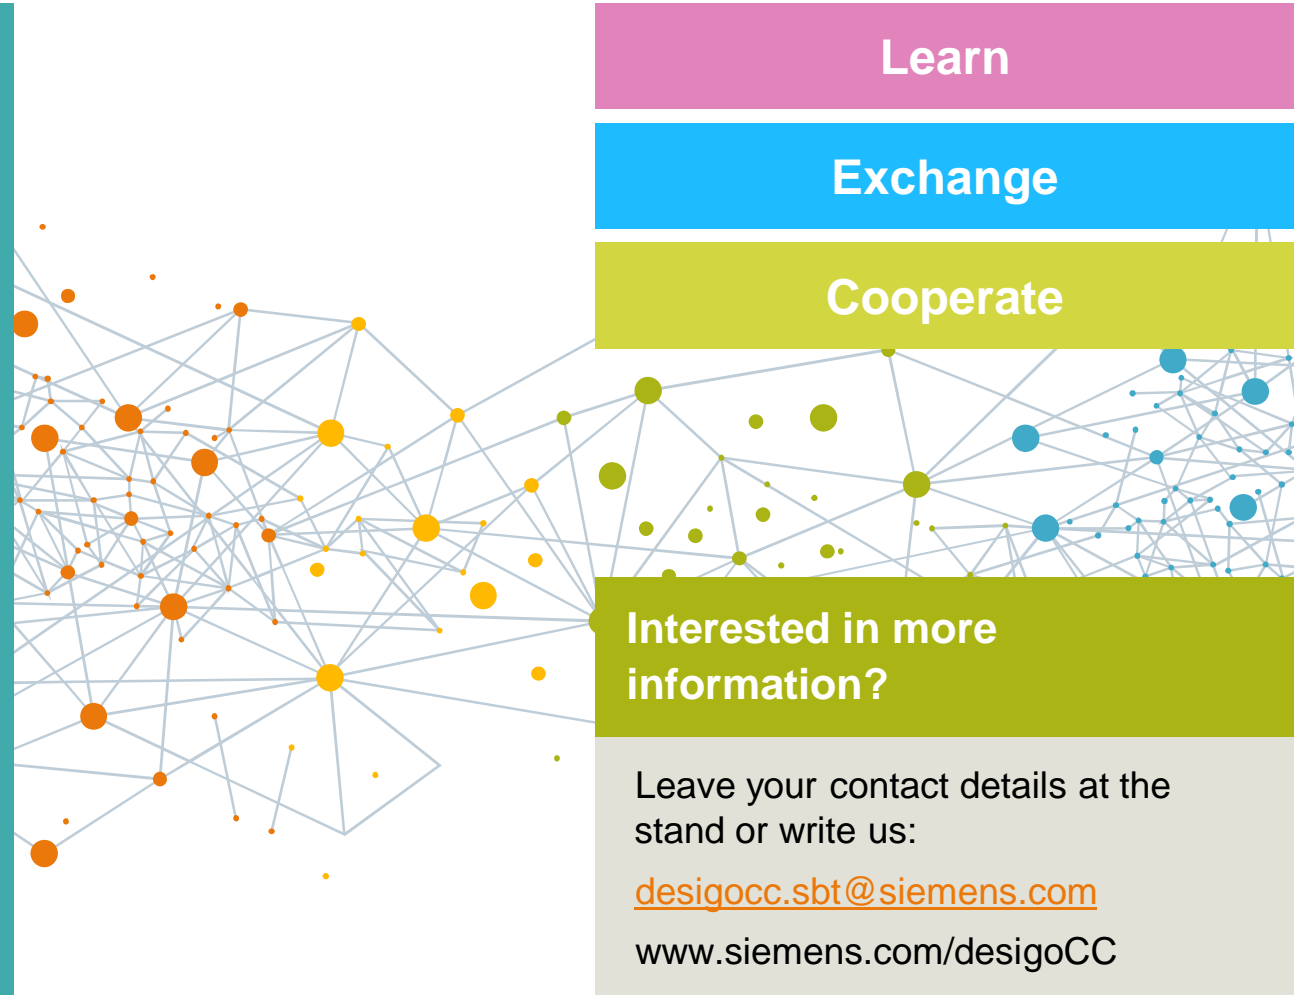

Desigo CC Ecosystem – a worldwide community in the making

Desigo CC Ecosystem – a worldwide community

for developer partners, independent system integrators, facility managers, solution partners and OEMs

to enable a dynamic and creative incremental development of building management, gather information and exchange ideas, products and services

Desigo CC Ecosystem

Make your products and solutions ready for Desigo CC

Ready for
Desigo CC

Building
Technologies

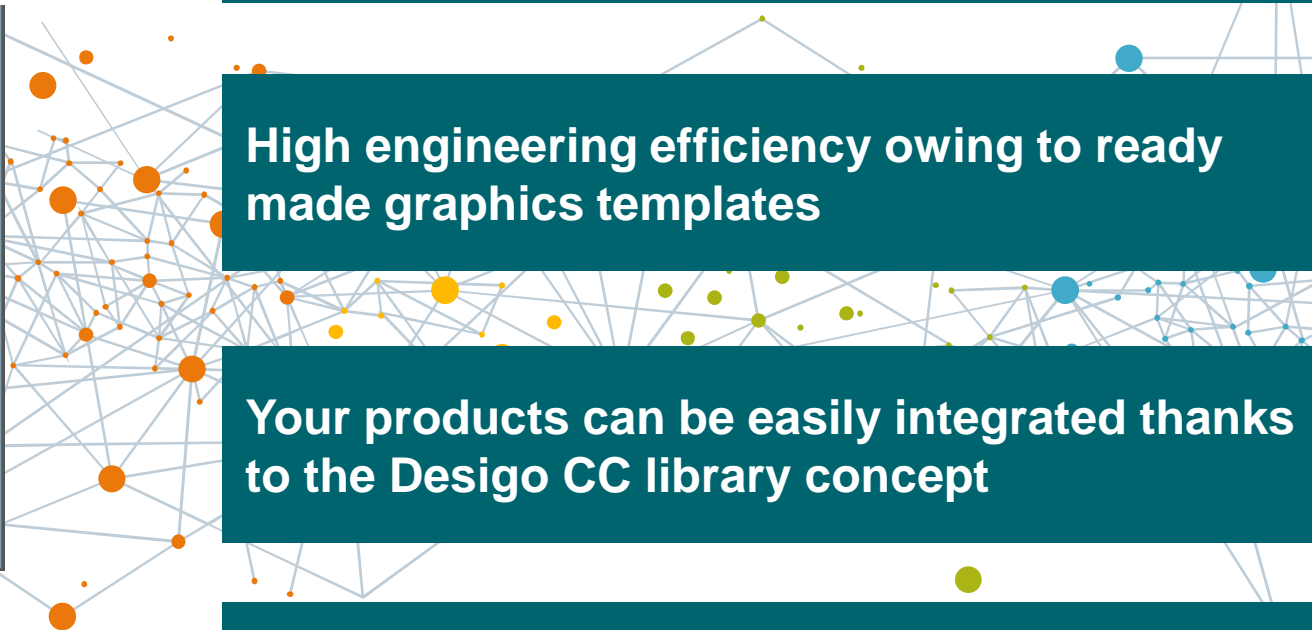

Benefit from the worldwide community of the
Desigo CC Ecosystem

High engineering efficiency owing to ready
made graphics templates

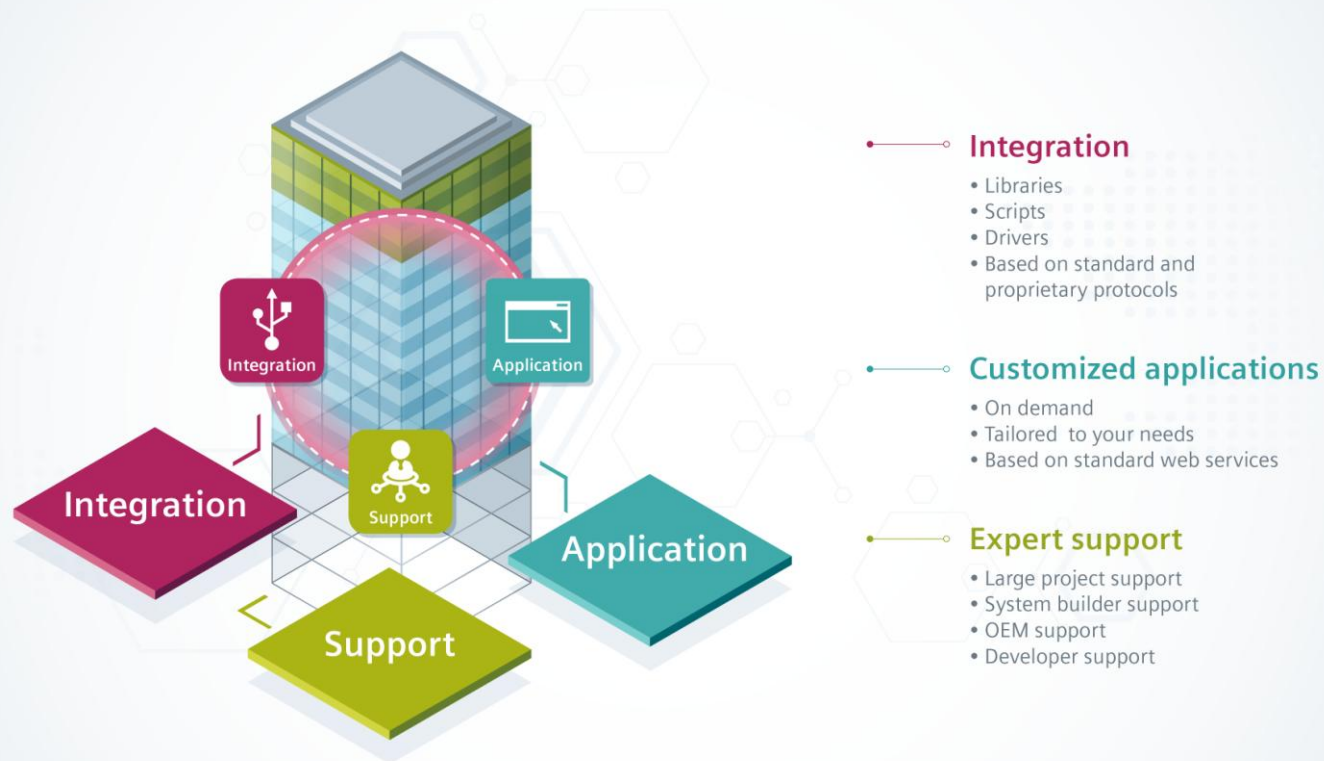

Your products can be easily integrated thanks
to the Desigo CC library concept

Proven compatibility, tested by Siemens

*

Application – Integration – Support

The Desigo CC Application and Integration Center provides customized incremental developments and support services by the manufacturer

**Thank you very much
for your attention!**
