To the best of our knowledge and according to the information of our suppliers the above mentioned device and its packaging contain no substances of the candidate list according to Article 59 (1, 10) of the regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) in concentrations above 0.1 % w/w.

(Status according to the creation date of this document.)

Environmental benefits

Due to the improved radio performance, the distance between the gateway and the network nodes becomes much greater (either horizontally or vertically across different floors). This reduces the number of nodes required.
