Short Circuit Current Rating (Wattour Meter not included in short circuit rating)

This panelboard has a Siemens Type QPH or MP-HT (rated 22k AIC) circuit breaker installed and has a maximum short circuit rating of 22,000 RMS symmetrical amperes, 120/240 volts ~. The actual rating is equal to the lowest rating of any breaker installed. If the circuit breaker is replaced, use only Siemens Type QPH or MP-HT.
