

Nexus™ Wireless Monitor: Advanced

Catalog number 5951

Description

The Nexus™ Wireless Monitor: Advanced provides remote monitoring capability for convenient indoor observation. By adding this item a generator owner can observe generator function, set certain operation parameters and receive maintenance reminders. The kit includes the wireless transmitter, wire harness connection, remote monitor display unit, desk mount/wall mount cradle, 120V AC plug and 3 AAA batteries. The addition of battery back-up ensures lasting operation.

*This system is only compatible with air-cooled and liquid-cooled models that utilize the Nexus™ digital control panel.

Advanced Wireless Adapter Kit (5959) must be purchased separately for units 22 kW through 150 kW.

Features

- Sleek, ergonomic case design
- Advanced membrane keypad
- Orange alert LED
- Backlit screen for easy viewing
- Desk or wall mountable cradle

Functions

- Permanent time/date stamped history of generator alarms
- Display generator faults and warnings
- Allows for remote testing of generator start and transfer functions
- Remote setting of exercise time and day
- Offers the ability to monitor utility voltage
- Graphing capability for trending of engine RPM, utility voltage and battery voltage
