

# Siemens new home builder options

**SIEMENS**

## Surge protected home

### SPD4home

- Surge Protection for all electrical and electronic equipment inside the home
- Installed at the load center (main electrical panel)

### SPD4tel

- Surge Protection for incoming telephone/DSL service
- Installed at the utility box

### SPD4coax

- Surge Protection for incoming cable TV or satellite service
- Installed at the incoming coax cable line from the cable company

### Warranty

10 year, \$100,000 connected equipment white appliance warranty covering all major appliances.\* (\*See written warranty)

## Benefits

- Solar energy can help reduce your electric bill by over 75% and cut your environmental footprint with clean power from the sun!
- Don't be at the mercy of your utility with seamless, always on electricity from a standby generator!
- Electric vehicles cost about 1/3 as much to operate than gasoline counterparts!
- Around \$450M in property damage occurs in the US every year as a result of lightning, don't be one of them by adding whole home surge protection!

Differentiate yourselves with four different value add packages to offer home buyers

Answers for infrastructure.

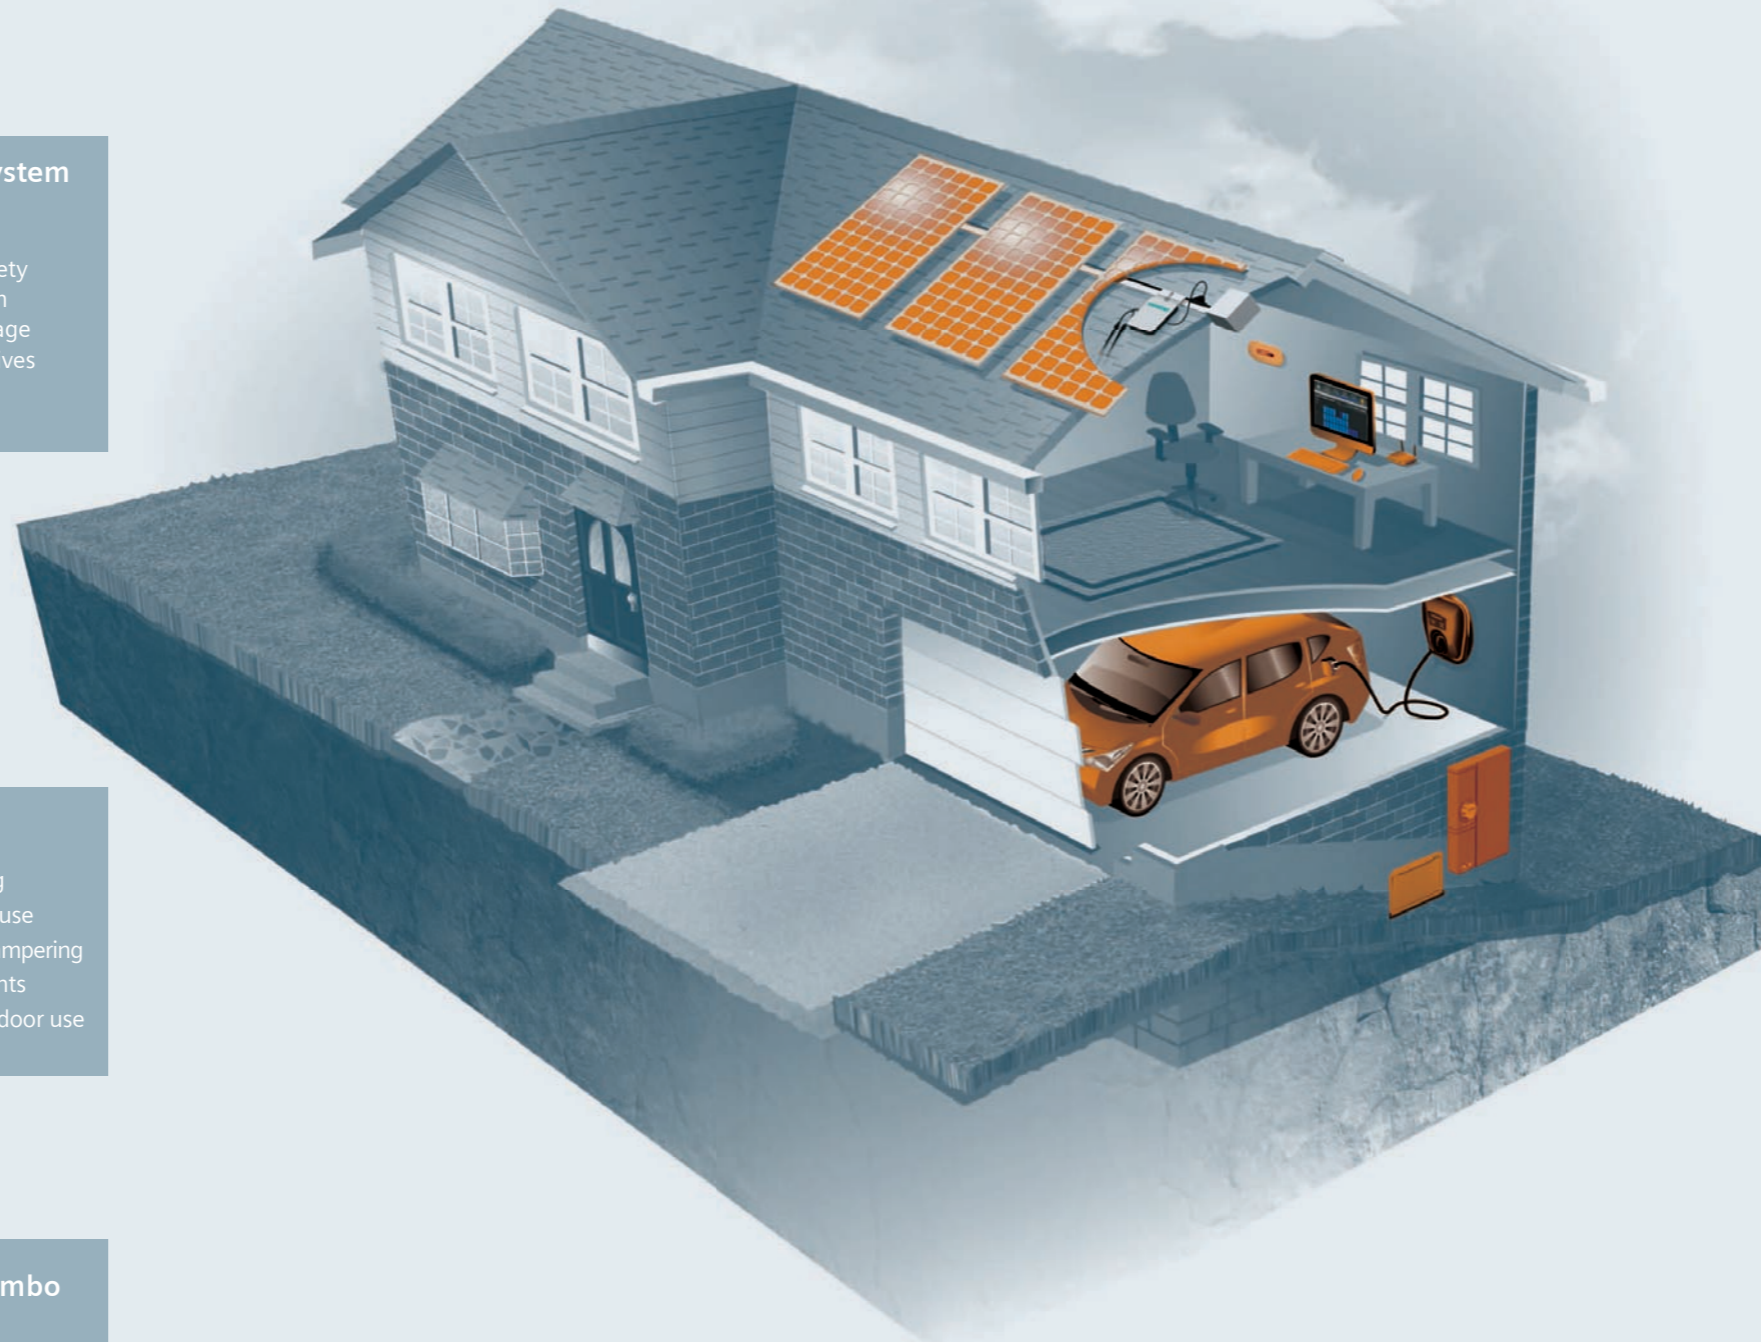

# Siemens new home builder options

## Solar powered home

### Solar Microinverter System

- Increased energy output and return on investment
- No DC wiring increases safety
- No extra electrical boxes on the side of house or in garage
- Module level monitoring gives clear picture of panel performance anywhere

### Safety Switches

- Unique design and UL listing means years of trouble free use
- Visible disconnect prevents tampering and meets utility requirements
- Enclosures for indoor or outdoor use

### Solar Ready Meter Combo

- 200 A Meter Load Center combination saves time and costs
- Dedicated 60 A photovoltaic input eliminates bus derating
- Includes other standard Siemens features like Insta-Wire™
- Inquire about module and racking partners to quickly complete the system of your choosing!

## Standby powered home

### Gen-Ready Load Center

- UL Listed
- Split interior design allows for automatic transfer to back up power
- Indoor and outdoor versions

### Siemens Air-cooled Generators

- Power outputs for any house size
- Powered by natural gas and industrially designed means reliable and quiet operation
- 40% of portable owners upgrade to standby generators

## Electric vehicle ready home

### VersiCharge Electric Vehicle Charging Station

- Unique indicating halo helps quickly determine charge state
- Flush install option removes extraneous wires
- Save money with delay timer
- Future options for integration into home automation system

### PL Series Load Center

- Backed by Lifetime Warranty
- Features patented Insta-Wire system, copper bussing, and other premium options

Any option can be mixed or matched for the ultimate Solar, Standby, Surge Protected, and Electric Vehicle ready home!
